Our Strategy For Action

**WYMAN’S THREE CORE ELEMENTS FOR SUCCESS, A MULTI-FRONT APPROACH**
Wyman works simultaneously across these three levels, with unique strategies for each level.

- **Empower Teens**
  Strong, quality programs ensure teens have the tools and skills needed to succeed.

- **Equip Adults**
  Caring, responsive and knowledgeable adults build relationships with youth by creating engaging and empowering learning environments.

- **Strengthen Systems**
  Well-researched systems-solutions create equitable and transformational opportunities for teens.

As a result, teens develop healthy behaviors and relationships, life and leadership skills and achieve educational success. These tools help teens thrive in learning, work and life.
