WRAPPING UP & FINISHING STRONG

This school year has been flying by! Our spring semester started off really strong with lots of CSL projects. Students created flowers with body positive messages to display around school, participated in the NFL initiative "My Cause, My Cleats" by designing shoes, and made cards to give to their family members. During Black History Month, students had a lot of fun making posters, buttons, and magnets to celebrate

the accomplishments and lives of Black figures. In addition to CSL, we've talked about a wide range of topics this semester! Students explored what love and relationships mean (and one club had a special visit from Boeing during this lesson), and discussed what family means to them. In March, we spent time exploring boundaries and what it means to practice consent in your everyday life. It's hard to believe this school year is quickly coming to an end, but we still have so much more planned. For Teacher Appreciation Week, students will be making "Teacher Survival Kits" to hand out to WW staff, we'll spend time talking about the future and goal setting, and of course we'll commemorate the end of the school year with a fun TOP celebration!

MORE AT-SCHOOL FIELD TRIPS

We had so much fun with our on-site field trips this semester! Since we couldn't leave school, we had a Monday and a Tuesday where students spent 3 hours with TOP doing

community service. In addition to all the amazing projects students made this semester to support their community, two TOP clubs at Wedgwood supported Wyman through their at-school field trips and the other two supported Friends of Kids with Cancer. For Wyman, students painted a canvas and tote bags. The canvas was painted in memory of DeVonne Wilson, to be hung up at camp to help continue to honor her legacy. Students did a great job working hard to make the canvas look good. Our other two clubs decorated tiles to be made into planters and decorated more tote bags to be given to Friends of Kids with Cancer as a way to show appreciation to their employees. Check out all their awesome work from this semester!

HINDSIGHT IS 20/20

This semester, we asked some TOP students what they wish they knew about middle school before starting 6th grade. Check out what they said below!

"I wish I knew that we have more classes and change classes."

"I wish I knew that I'd have more responsibilities and more work to do."

"I wish I knew how to use Chromebooks and e-Hall Pass."

"I wish I knew that we didn't get recess anymore."
