# TEAM BUILDING AND ADVENTURE PROGRAMS

## ½ Day High Challenge (2-3 Hours)

### Full Day High Challenge (6-7 Hours)

Negotiating obstacles perched at treetop level challenges participants to reach beyond limitations. Our professional facilitators make this more than just fun in the forest! Our high ropes programs are built to teach goal-setting/achievement, trust, leadership, and communication skills. Wyman has multiple high challenge courses, one of which culminates in a breathtaking 150' Zip Line through the trees. We can offer your group a series of high course experiences, each emphasizing a different leadership-related skill.

## Team Challenge Course – Approx. 2-3 hours

Our most popular adventure course, the Wyman Team Challenge Course will strengthen your group dynamic with a program personally customized to achieve your desired results. Wyman's professionally-trained staff will lead your group through multiple elements that demonstrate how great things can be accomplished when everyone works as a team.

## 50' Climbing Tower – Approx. 2-3 hours

A favorite among many of our repeat groups at Wyman, the 50' climbing wall has 3 sides of different climbing challenges. It is an effective metaphor for goal-setting and exploring what it takes to reach beyond limitations. Reaching the top is fun, but experiencing how to effectively support others as they reach for their best is the most important theme.

## Crate Climb – Approx. 3 hours

This fun and bonding experience is a great remedy for those with a fear of heights. Starting at ground level and with the help of their group members, participants are challenged to work their way higher and higher into the air by vertically stacking milk crates and climbing up and up until...CRASH...they all come tumbling down. Not you though, as you will be safely suspended by a belay system and lowered back to earth. Try to beat our current record of 18 crates high!

## Team Building Events (Your Place or Ours!) – Approx. 3 hours

Participants work together on a variety of fun activities designed to improve communication, coaching, trust, and problem-solving skills. Participants take part in focused activities and discussions that relate to improving a specific skill set. Team building can be facilitated here at the Wyman campus, or we can come to your church, meeting space, corporate office, or school campus all year round.

# OUTDOOR EDUCATION PROGRAMS

## Target Sports - 3 hours.

Instruction by our skilled staff in a variety of target sports followed by target practice on our new range. Participants may get to use blow guns, sling shots, atlatls, archery, or tomahawks.

## Orienteering - 3 hours.

Participants will work together to learn basic map and compass skills as they negotiate a pre-set orienteering course through the forest.

## Living History - 3 hours

Participants will go back in time to the 19th century and perform common daily chores to learn about pioneer life. Take-home gift and snack provided.

## Aquatic Ecology - 3 hours

Participants learn about the many living things living in our lakes and streams, their life cycles, and the ecological roles they play in a variety of aquatic environments.

## Forest Ecology - 3 hours

Trees are the heart and soul of the forest. This program will teach tree identification, forest layers, and the effect of topography, sun, and slope on the development of trees.

## Large Group Games

Participants will be involved in a variety of field games and other fun activities.

## Swimming - 2-Hour Sessions (seasonal, Check for Availability)

When weather permits, include a refreshing swimming session for your group in our newly-renovated outdoor pool. Pool maximum capacity is 60 swimmers per session.

# INDOOR & EVENING PROGRAMS

## **EPIC – 1 hour**

Teamwork, group dynamics, communication skills, and leadership skills are all emphasized in this fun teambuilding activity. The members of small teams work independently and as a group to complete a list of activities and are awarded points for completion.

## **Tie-Dye – 45 minutes**

Participants will tie-dye and take home T-shirts or other items provide by Wyman forming colorful patterns through the use of rubber bands and twisting techniques.

## **Night Hike – 1 hour**

Evening hike allows campers to explore the dark through a series of games and activities.

## **Interactive Traditional Campfire & S'mores – 1 hour**

This activity will include s'mores and a combination of activities including storytelling, songs, etc.

## **Baba Kunama Campfire**

Vibrant drumming, singing, & stories brining students together. S'mores not included.

## **Astronomy – 1 hour (SPRING 2023)**

Utilize a telescope to see stars, planets, or the moon. Instructors walk students through the constellations, including myths, legends, and interesting facts. On cloudy nights, astronomy-focused games will be facilitated.

## **NEW EVENING OPTIONS:**

**Karaoke, Dance Party,  
Trivia Pursuit**
