Wyman has helped prepare me to achieve my dreams by helping me become more outspoken. Before, I was really shy, and Wyman has helped me find my voice and encouraged me to participate in new opportunities.

Through my work, I hope that I am able to impact just one student, to be able to build even just one meaningful relationship with a teen who knows that I'm here to support them in any capacity that they need, and knows I truly am a champion for their success in whatever that may look like. Because I know how important and transformational that can be.
